Civil Aviation Authority Working Hrs: 06:30 to 22:45 It is an island made by Gods for people. Who hasn't have something to say about Mykonos, who hasn't swim in its vast boundless blue waters, who hasn't have lived unforgettable moments... Mykonos, the sea, the sky, the sun, the hospitality, the fun, the harmony, the charm.

A never-ending real myth surrounding us, every part of it a reality, something special, challenging you to live it, taste it, relish it. An barren island, arid, burned by the sun but full of golden beaches and crystal water.

The white color, the stone and the scattered mountains are indelible memories in the mind.

The natural elements are vivid and strong, filling you, guiding you in new sensations; the air, the sun, the moon are the eternal guides.

The harmony of the Myconian architecture is really astonishing. The location and the way the town of Mykonos is built -inside the Northern eye- the port, the particular colors, it is an exceptional masterpiece.
